OFFICER SMITH NOT JUSTIFIED.

An investigation was held yesterday by Coroner Levy in regard to the death of Patrick Reagan, who was shot in his liquor store at No. 404 Madison-st, last Sunday might, by Policeman John W. Smith, of the Eighteenth Precinct. Ex-Mayor Guntber was the foreman of the jury.

The first witness was James O'Day, a machinist of No. 343 Madison-st., who was present when the shooting took place. When Reagan had the sword half drawn from its scabbard O'Day cried out. "For God's sake, don't fire. We'll pacify him!" Reagan could not possibly have reached him from where he stood behind the bar. No one interfered with the officer in any way except Reagan, who was under the influence of liquor at the time. James Laimy said that Reagan had drawn the sabre about four inches when the officer fired. Reagan dropped the sword and putting his hand on his breast said, "My God, I'm shot!" After a number of witnesses had been examined, who gave corrobarative evidence, Officer John W. Smith, the prisoner, was put upon the stand. He said: "Lauingan got up and Reagan seized a chair, but was stopped by O'Day and his wife. He then started for the counter, and the big butcher then came for me and I turned my back uoon Reagan. I drew my pistol and just then James O'Day cried out, "My God, he will kill him with his sword," and heard a rattling sound and saw the blade of a sword pass under my right arm. Turning half way round I fired over the counter, and at the same time I saw George Smith come in, I beheve if I had not fired I should bave been killed at the next thrust."

The charge delivered by the Coroner to the jury contained the following: The charge delivered by the Coroner to the jury

The charge derivered by the contained the following:

"Before committing this case to your consideration, I contained but express the most marked condennation of the line of conduct pursued by the accused prior to the latal act. If it were done with the authority and by the direction of the police efficials, it cannot be too severely condemned. The office of a spy is always most despice. But when a man electhes himself in attire which disguises his position, and watches to detect a trivial oftense like that impured to the deceased, he cannot be too barshly viewed. Such demeanor is cowardly, and those guilty of it are likely recklessly to use dangerous weapons. The police force of this city, as a class, are suen of brave natures and chivalire bearing, and they cought not to be disgraced by being forced to perform is nominious duty."

After deliberating for nearly an hour the jury

After deliberating for nearly an hour the jury brought in the following verdict: brought in the following verdict:

We find that Patrick Reagan came to his death by a ball fired from a pistol in the hands of John W. smith; and we further find that from the evidence presented the said John W. Smith, in firing the said pistol, was at the time of firing, not instriked in doing so; and we also desire an i wish to express our condemnation of the mode and spy system practised by the police in detecting violations of the Excise or Sunday law. If the law warrants the same it should be speedily changed.

A SUCCESSOR TO DR. BELLOWS SECURED.

The pulpit of All Soul's Chnreh, which has been vacant since the death of the Rev. Dr. Henry W. Bellows in January, 1882, has been filled by the selection of the Rev. Theodore C. Wilhams, of Winchester, Mass. The choice of a pastor was left by the church in the hands of the trustees. Many leading clergymen of the Unitarian denomination have preached before the congregation, including several who have been considered when the subject of choosing a successor to Dr. Bellows has been discussed. The trustees, after consulting the wishes of the members of the church, found that the Rev. Mr. Williams and the Rev. Mr. Hornbrooke, of West Newton, Mass., were most favorably regarded. A call was sent to Mr. Hornbrooke, but after some hesitation on the part of that clergyman the call was not accepted, as he was unwilling to sever the pleasant relations which be had established. The Rev. Mr. Williams was then consulted, and after a meeting of the members of the All Souls' Church a unanimous call was extended to him. Mr. Williams accepted the call, subject to the action of his church, a meeting of the members of which was held at Winchester last night, when the entire matter was left to the judgment of Mr. Williams and the committee of All Souls' Church.

Mr. Williams is about thirty years of age. He was graduated from Harvard College a few years ago and was the orator of his class. He was the leading member of his class in the Divinity School. He has been for almost a year the pastor of the Unitarian Church at Winchester, a town not far from Boston. He has preached on two occasions at All Souls' Church, and is spoken of as a fine pulpit orator, with an impressive presence and effective delivery.

Mr. Garrett, who is still in Europe, is reported to have refused \$45,000 for Damascus, and there is an insurance of \$40,000 upon his life.

THE BROOKLYN SILVER THIEF CAUGHT.

The Brooklyn police are now convinced that the thief who has stolen a large quantity of silverware in various parts of that city in the last two months has been caught in the person of James Russell, age thirty-one, who says that he lives in Goerek-st., in this city, but will not tell the number. Mayor Low appointed such a commission last year to assess the damages to owners on the route of the East River Bridge and Coney Island Steam Transit Company, but it never acted, as the company could not secure the consent of the Supreme Court to its route.

An order was made resterday, by Judge Cullen

An order was made yesterday by Judge Cullen requiring cause to be shown why a referee should not be appointed to determine what compensation M. E. Sawyer should receive for services as lawyer for the plaintiff in the suit of Miss Mary Alice Almont Livingston against Fleming for breach of promise of marriage, in which she received \$75,000. The plaintiff has offered to settle for \$15,000, and thinks \$5,000 would be enough for her lawyers, but they are not satisfied with that amount.

JERSEY CITY.

JERSEY CITY.

The Supreme Court at Trenton yesterday affirmed the decision of the Hudson County Court of General Sessions in the case of John Halliard, who was the president of the Mechanics and Laborers' Savings Bank of Hersey City at the time of its failure in November, 1878. The failure was due to fraud and mismanagement on the part of Hilliard and the directors of the bank, and indictments of conspiracy to defraud the depositors were found against them. Halliard was sentenced to eighteen months in State Prison.

Prison.

Frank J. Mechan, who on Saturday last resigned his position as warden of the Hudson County Penitentiary, the Supreme Court having decided that his election was illegal, and who, on Wednesday, was convicted in the Court of General Sessions of a charge of allowing a prisoner to escape in consideration of a bribe of \$10, was sentenced yesterday by Judge MeGill to nine months in State Prison. Many of Mechan's political friends had pleaded with the Court in his behalf, and to them the sentence was a great surprise. Mechan, almost crying, was taken to the County jail, where he will remain until his removal to the State Prison.

A VETERAN BENEFACTOR.

His Past Life, Present Plans, and What He Has to Say Upon a Subject That Astonished Him.

Nearly forty years ago a young man, of unsubject of vital importance. Like all pioneers, his early efforts were unsuccessful, but his ability and the value of his work scon won public confidence, and to-day there is a not a village or hamlet in the country that has not been influenced by Dr. Die Lawie. When, therefore, it een influenced by Dr. Dio Lewis. When, therefore, it was learned yesterday that he contemplated the estab-lishment of a large magazine in this city, the fact was deemed so important that a representative of this paper was commissioned to see him and ascertain the truth of

was learned yesterus, that he concentrative of this paper was commissioned to see him and ascertant the truth of the rumor.

Dr. Dio Lewis is a gentleman of sixty years and two hundred pounds, with snow-white hair and beard, but probably the most perfect picture of health and vigor in the metropolis. He is a living exponent of his teachings, and notwitnstanding the amount of work he has already done, promises still greater activity for years to come. He received the interviewer most courteously, and in reply to a question said:

"It is true I have come to New-York to establish a monthly magazine. I have come here for the same reason that I went to Boston, twenty-live years ago. Then Boston was the best platform in the country from which to speak of education. New-York has now become most hospitable to progressive thoughts, and especially so to movements in behalf of physical training.

"I have reason to know the great and abiding interest of the American people in this subject. They have come to realize that the future of our country pivota upon our physical vitality, and especially upon the vigor of our women. My new magazine will bear the title 'Dio Lewis's Monthly,' and be devoted to Santarry and Social Science. I hope through its pages to inaugurate a new departure in hygiene.

"Have you not written several books on the subject ?"

"Yes, nine volumes, and some of them, like 'Our Girls,' published by the Harpers, have had an enormous circulation, but the best work of my life I shall give the world in the new magazine. Forty years of skirmishing ought to conclude with ten years of organized warfare."

"Doctor, what is the occasion of this new interest in health questions?"

"It has come through suffering, which seems the only road to self knowledge. The stomach, heart, kidneys have greatly multipiled. When I was engaged in practice thirty-five and forty years ago, serious disease of the kidneys was rare; but now distressingly frequent and forty years ago, serious disease of the kidneys was rare; but now distr

troubles!"

"To the use of stimulating drinks, adulterated food and irregular habits of life."

"Doctor, have you any confidence in the remedy of which we hear so much nowadays, "Warner's Safe Curs !"

"I believe in the ounce of prevention rather than in a ton of cure."
